Is the Charge Against Kingwood Man Who Gives Bond Before United States Commissioner.

Buckner Fairfax, of Kingwood, was brought here Monday morning by United States Deputy Marshal Dan R. Jackson and taken before United States Commissioner Thomas S. Spates on the charge of violating the internal revenue laws. He gave bond of \$200 before the commissioner for his appearance at the Wheeling term of the federal court in April.

Got that sack WM. TELL FLOUR yet? FROM THE ASHES.

Baltimore Family's Experience Points a Moral to Residents of Clarksburg. The visitor to Baltimore today scarcely realizes that less than a year ago the city was almost destroyed by a memorable fire. A similar comparison might be made by George W. Nally, one of the leading citizens of Baltimore, as to the change in his own looks.

A short time ago, Mr. Nally, writing from his home address, 2213 Barclay St., says: "I have been troubled for years with catarrh and had resorted to all remedies that could be thought of. My wife was also afflicted with this terrible disease, but all the treatments we used were absolute failure until we tried Hyomei. It worked like a charm and has made a complete cure in both of our cases."

C. D. Sturm & Co., the local agents for Hyomei, have so much faith in the treatment that they give their personal guarantee to refund the money in case it does not benefit. A complete outfit costs one dollar, the extra bottles are but fifty cents. Ask to see the strong guarantee under which Hyomei is sold.

### SURVEYORS

Are At Work On West Fork River Between Here and Middleton For the Fairmont & Clarksburg Traction Company's Line.

A surveying corps of nine men, sent out by the Fairmont and Clarksburg Traction Company, is at work somewhere between Middleton and Clarksburg, on the west side of the West Fork river, making a preliminary survey of a route on the proposed extension of the line from Middleton to Clarksburg.

It is thought that the corps will finish its work on the present line in a few days. It is the intention of the engineers to put on without delay and finish this survey. After the line on the west side of the river is completed (on paper) the surveyors will be put to work on an altogether new route on the east side of the river.

When both routes are surveyed they will be submitted to the company and the most practical line will be adopted. Nothing definite can be learned as to the time the work on the road will actually commence but there is a strong likelihood that dirt will be flying by next May. Of course there is nothing to base this prediction on, as no statements have been given out, but it is generally understood that work will begin early next year.

#### Police Court.

Eight prisoners were made to face Mayor Shields at the regular session of police court Monday morning. All were charged with drunkenness. All confessed to the charge and the usual fines were applied. Four went to jail for three days and two for five days in default of paying their fines. The others paid out. Three put up fines of three dollars and costs each were collected by forfeiture.

## MRS. MITCHELL IS DEAD

Mrs. Cora E. Mitchell, Wife of Boyd D. Mitchell, Passes Away At Her Home in Monticello Addition.

Mrs. Cora E. Mitchell, wife of Boyd D. Mitchell, died at her home in the Monticello addition Sunday morning at 12:30 o'clock from typhoid fever.

The deceased was thirty-eight years of age and is survived by her husband and three children, the oldest being ten years of age and the youngest two years old. She was the daughter of Hugh Garrett, of Davison's Run, this county, and a sister of Robert A. Garrett, of this city.

The funeral took place from the late home Monday at noon. The burial occurred in Elk View cemetery in this city.

### WATER SUPPLY

For Clarksburg Will Be Brought From Buckhannon River By Company About to Organize.

Several very prominent citizens have an important scheme on, which, if it materializes, will be the greatest thing to Clarksburg since the street cars came. It is no more or less than piping water from the Buckhannon river. They have earnestly taken the matter up and a large and enthusiastic conference was held Saturday night. The main spokesmen on that occasion exhibited so much earnestness in the matter that they voluntarily offered to subscribe from their private funds large sums of money.

The matter was thoroughly discussed and various plans were submitted such as bonding the city, and also private ownership. It was thoroughly mapped out what would be essential to a complete system. Whether any thing comes of the movement or not, it was decided that the meeting Saturday night was a success in every particular and there was plenty of evidence of profound knowledge of the subject, except that it was not known definitely as to who owns the Buckhannon river and to whom concessions would have to be made.

The spirit manifest on that occasion, however, is ample evidence of the fact that something is to be determined upon in the near future and there is assurance that we will be bathing shortly in the same crystal waters the mountain trout swim in so deceptively.

### GRAND JURY

Will Not Convene Until March and There Will, of Course, Be None in January Under New System.

Under the new judicial system there will be no January grand jury term of the circuit court. The first term at which the grand jury will sit will be in March next. Under the new system there will be four terms a year instead of three as heretofore. They will be held in March, June, September and December. It is likely Judge-elect Lynch will hold a special term in January but there will be no grand jury.

### SOME REASONS WHY PEOPLE ARE SETTLING IN MISSISSIPPI AND LOUISIANA

Because it is the best country known to the man of moderate means...  
Because you will find a country of rich soil awaiting the settler.  
Because there are uplands, prairie lands and alluvial river bottoms.  
Because you can be certain of profitable returns from whatever you put into the soil.  
Because the winter does not consume what the summer produces.  
Because there are more and better opportunities for diversified farming than elsewhere.  
Because the seasons are regular and no fear of crop failure.  
Because the country is never scourged by cyclones and devastating storms and blizzards.  
Because everything grown elsewhere can be produced here more abundantly.  
Because truck farming is a success; products being early on the market obtain high prices.  
Because no better fruit country is known, oranges, plums, pears, peaches, apples, grapes, strawberries, figs, pecans and others fully maturing.  
Because there are more chances for profitable investment of capital than elsewhere in this country.  
Because for healthfulness this section is unequalled on the face of the globe.  
Because you have no long winter months to encounter, with no excessive dry heat in summer.  
Because the climate is more uniform than elsewhere, no extremes of heat or cold.  
Because you will find as orderly communities as anywhere on this continent.  
Because you will find the most open-hearted people on the globe.  
Because education is paramount; public schools and churches or every denomination are to be found in all communities.  
Because the railroad facilities of this section are unequalled, a double track railroad traversing the entire length of both states.  
Because really good lands are yet cheap.  
Because the geographical location of these states gives them the best markets in the United States.

We secure lands for home seekers or for colonies. Write today for full particulars and letters from Northern farmers already located in the South.
